Dr. Luz S. Almeda
Regional Director (NCR)
Department of Education
Misamis St., Bago Bantay, Quezon City

Greetings!

We are from the **University of the Philippines Academic League of Chemical Engineering Students (UP ALCHEMES)**, a duly recognized organization from the College of Engineering of the University of the Philippines - Diliman. UP ALCHEMES is committed to promote academic excellence, holistic development, and benevolent service through masterfully shaped activities for its members, the college and university, and the nation.

Steered by our visions, we will once again hold the annual **RESEARCH FAIR**. UP ALCHEMES Research Fair is a three-day Inter-High School research-based competition. Since its establishment in 2002, Research Fair has become a forefront manifestation of the organization's commitment to promote academic excellence and service, with Research Fair 2014 having over **193 research entries and participants** from all over the regions of the Philippines gracing the event.

On its 14th year, with the theme: **'POLYCHORE: Perceiving Beyond Established Scientific Frontiers'**, Research Fair 2015 continues to be a venue for these scientific explorations of the youth which strongly impact the environmental, economic, and social aspects of the country through the *Research Competition*. Students will also be able to hone their critical thinking skills through the *National Science Conquest,* a series of competition-based activities that fosters the camaraderie and teamwork of the students. Moreover, students, as well as teachers, will be given the opportunity to participate in various seminars and workshops, and the chance to interact with professionals from different fields of expertise in the *Youth Science Convention*.

In this regard, the DepEd Central Office has already released a memorandum (**DA No. 320, s. 2014**) regarding the invitation of schools to this event. However, we would like to ask for your office's further support **by issuing a regional memorandum** for further information dissemination to the division level and reach as many high schools under the Department of Education. The advisory will specifically entail **the help in sending invitations to all high schools** under your department. In line with your department's efforts to promote the advancement of Filipino's education, we would be honored to be part of your institute's commitment to a culture of scientific knowledge and developments. Your support will not just help our organization commemorate more than a decade of passion for knowledge, but also strengthen our mission to intensify the thirst for learning of today's generation.

Attached herewith are the event details for Research Fair 2015.

Together, let us provide a platform for the growth of these young aspiring scientists and further fuel their drive to pursue research for the advancement of future generations. Indeed, this coming Research Fair shall carry on the legacy brought on by the success of previous Research Fairs.

We thank you for your consideration regarding this matter. Your unwavering support and immediate response would be more than appreciated.

Respectfully yours,

Jonah Anjelou Ecito
Over-all Head
Research Fair 2015

Ian Paolo Pe Benito
