Dr. Pecos Camarines
 City Health Officer
 Mandaluyong City

Dear Dr. Camarines,

Intestinal Helminthiasis remains a health problem significantly affecting the health and development of school children causing anemia, decreased physical activity and poor performance in school. The Department of Health gives a step by step solution to the condition of the health not only of the Filipino children but of the adults as well. The program aims to reduce the prevalence of Soil-Transmitted Helminthiasis (STH) infection to below 50.0% among the 1-12 years old children and lower STH infection among adolescent females, pregnant women and other special population group.

In line with this, the Department of Health-National Capital Regional Office (DOH-NCRO) will conduct a **Stakeholders Forum on Integrated Helminth Control Program on August 28, 2014, at City State Tower, Manila**. Relative to this, may we invite you and the following partners to attend the said activity:

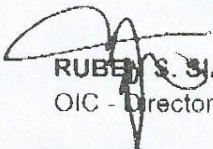

IHCP Medical/Nurse Coordinator	2
Garantisadong Pambata Coordinator	1
* Elementary school Principals/Representatives	7
* DepEd Division Office	1

Furthermore, may we request your good office to kindly invite the school representatives. For confirmation of attendance, kindly fill-up the attached Reply Form and send it back to us through fax or email at genebiado@gmail.com on or before August 18, 2014.

For any clarifications, kindly communicate with Ms. Gene Rosalyn D. Biado at telefax 531-0021 loc.107 or mobile no. 0905-2631314.

Your usual cooperation is greatly appreciated.

Very truly yours,

RUBEN S. SIAPNO MD, MPH
 OIC - Director III
