MEMORANDUM

TO: Education Program Supervisors/District Supervisor
Principals, Andres Bonifacio Integrated School
Bonifacio Javier National High School
City of Mandaluyong Science High School
Mataas na Paaralang Neptali A. Gonzales
Mandaluyong High School

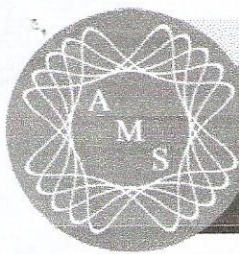

Subject: **MATHSAYA 12: THE LEGEND OF ARYABHATTA
SEMINAR-WORKSHOP FOR PUBLIC HIGH SCHOOL**

Date: January 21, 2015

1. Attached is a letter from Ms. Maria Carmita C. Urbano and Mr. Earl Michael C. David, Project Head Mathsaya 12, Ateneo Mathematics Society, inviting seven (7) selected 3rd year and/or 4th year students to a seminar-workshop on **Mathsaya 12: Legend of Aryabhatta** which will be held at the **Escaler Hall, Ateneo de Manila University** on **January 31** and at the **Leong Hall, Ateneo de Manila University** on both **February 14 and 21, 2015** from **8:00 AM to 5:00 PM**, for appropriate action.
2. Wide and immediate dissemination of this **Memorandum** is desired.

Dr. Nerissa L. Losaria
Officer-in-Charge
Division of City Schools – Mandaluyong
Department of Education

Dear Madam:

Greetings!

Our organization, the Ateneo Mathematics Society, will be holding a lecture series entitled "Mathsaya 12: The Legend of Aryabhata". The event is a **free, three-Saturday seminar-workshop for public high school students** who possess a deep interest for mathematics. It will be held at the Escaler Hall, Ateneo de Manila University on **January 31** and at the Leong Hall, Ateneo de Manila University on both **February 14 and February 21, 2015**.

Now on its 12th year, we are opening this project to math enthusiasts in the junior (Grade 9) and senior (Fourth Year) year level since we believe that our program will benefit them the most as they will soon move on to college where they will be having more advanced interactions with mathematics. Through this project, we wish to cultivate further their interest in math-related courses as well as instill in them the habit of thinking critically whether in the classroom setting or in real life. Finally, we wish to allow them to meet other math enthusiasts from the NCR who also share their passion for excellence in mathematics.

In line with these goals, we would like to humbly ask your office to disseminate the attached letter upon receiving this request to the following schools that have actively participated in the previous sessions of Mathsaya:

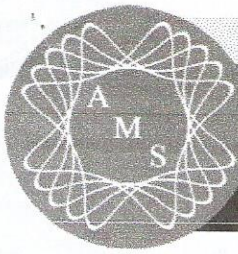

Andres Bonifacio Integrated School
Bonifacio Javier National High School
City of Mandaluyong Science High School
Mataas na Paaralang Neptali A. Gonzales
Mandaluyong High School

If you have questions, please feel free to contact **Mita Urbano** at 0932-468-0012 and/or **Earl David** at 0917-534-2442.

Your support will be vital to the success of this endeavor. Thank you very much for your help and cooperation. God bless!

Dear Sir/Madam:

Greetings!

The Ateneo Mathematics Society (AMS) is organizing a free, three-Saturday seminar-workshop entitled "Mathsaya 12: The Legend of Aryabhata" for public high school students who possess a deep interest for mathematics.

As the flagship organization of the university in the field of mathematics, it is through Mathsaya that the AMS aims to fulfill its mission of becoming socially involved in addressing the needs and concerns of the math enthusiast community. Included in the organization's goals are achieving mathematical excellence through the introduction and enrichment of mathematical ideas and concepts, and nurturing the mathematical potential and appreciation not only of the communities within the Ateneo, but also of the larger community.

With this, we would like to invite your school to send at most seven (7) **3rd year and/or 4th year students (Grade 9 and/or 10)** as participants to the said seminar-workshop, which will be held at the Escaler Hall, Ateneo de Manila University on **January 31** and at the Leong Hall, Ateneo de Manila University on both **February 14 and February 21, 2015**. The event will be from **8:00 AM until 5:00 PM** on the dates aforementioned. Registration during the event days will begin as early as **7:30 AM**.

Now on its 12th year, Mathsaya will be holding a series of lectures focused on the vast applications of mathematics. Alongside these lectures, the students will participate in physically-oriented group activities designed to deepen their mathematical experience while fostering new relationships with other math enthusiasts participating in the event.

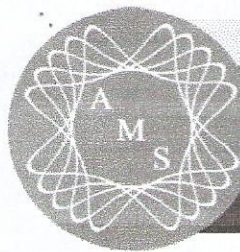

We are opening this project to **math enthusiasts** in the junior (Grade 9) and senior (Fourth Year) year level since we believe that our program will benefit them the most as they will soon move on to college where they will be having more advanced interactions with mathematics. Through this project, we wish to cultivate further their interest in math-related courses as well as instill in them the habit of thinking critically whether in the classroom setting or in real life. Finally, we wish to allow them to meet other math enthusiasts from the NCR who also share their passion for excellence in mathematics.

As the organizers of the event, we would be providing the students with their lunch and snacks for free. We would only like to request your students to:

- 1) Wear **jogging pants/jeans, white shirts, and closed shoes** for the first day;
- 2) Bring **extra clothing, necessary medicine, and umbrella/s**, and;
- 3) Bring **baunan** (i.e. Tupperware), **tumbler, spoon, and fork** for lunch.

Ateneo de Manila University, Katipunan Ave, Loyola Heights, Quezon City
ateneomathsociety1415@gmail.com

To officially register for the event, we request you to:

- 1) Send the contact information of your school office or Mathematics Department to **amsmathsaya@gmail.com** on or before January 21, 2015;
- 2) Ask **each** of the participants to fill out the Confirmation Form at **tinyurl.com/ms12confirmation** on or before January 21, 2015 to confirm their slots, and;
- 3) Ask the participants to like the Facebook page at **fb.com/amsmathsaya** for more updates and announcements regarding the event.

Due to logistical concerns, we are upholding a limitation as to how many students we can accommodate. It would be better if the participants would fill out the Confirmation Form at the earliest possible time. It is also recommended that they confirm as a batch, or in a simultaneous manner. The students will then receive acknowledgement e-mails within two days once their slots have been confirmed. We hope you can send students who will be able to attend all three days of Mathsaya in order for them to fully appreciate the experience we have prepared for them. Please note that walk-ins are not allowed.

Should you have questions, please feel free to contact us through the mobile numbers written under our respective names.

Thank you very much!

Respectfully yours,

Mayia Carmita C. Urbano
