THE ADMINISTRATOR

Subject: *Proposal for Outbound Tour Packages*

Dear Sir/Madam:

Warm Greetings from **PALANCA TOURS AND TRAVEL!**

Education has been undergoing a significant metamorphosis for new perspective on teaching and learning are emerging every now and then. The focus of education has shifted from the traditional stress on the acquisition of information to an emphasis on learning to learn, from passive to active learning, from independent work to cooperative learning relationships and from teacher-centered to learner-centered pedagogy. Thus, learning should not be curbed within the four walls of the classrooms or limited within the parameters of the school.

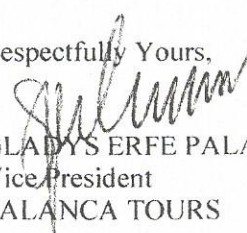

It is on this premises that educational tours are integrated in the curriculum so that the learner is able to reflect his own experiences and construct his own understanding of the world he lives in. Learning, therefore, is simply the process of adjusting our mental models to accommodate new experiences where learners must start with direct purposeful experiences which represent reality and the closest things to real and everyday life look going to different places. Visiting other places outside the school will surely enhance the spiritual, cultural, intellectual, athletic and social experiences of the learners.

The PALANCA TOURS, our company, has been providing excellent services to many schools in Metro Manila and its suburbs for a number of years. It is our ardent desire to link our company so we can be partners in developing the total personality of our youth today. We assure you that quality and dependable service be provided.

Enclosed herewith are lists of suggested itineraries for your references.
